You are expected to bring the following with you to the workshop

- 1) a text you have written yourself in English. You will be working on this text during the workshop. It doesn't matter how long it is.*
- 2) a paper from your area of work that has, presumably, been written by a native speaker. It is sometimes difficult to know if an author is a native speaker; you will have to make an educated guess. If possible, the paper should be on original research (and not e.g. a review of other work) and not more than 8 years old. You can bring the text in printed form or on your laptop/tablet, whatever suits you best.*
- 3) something to write with/on*
